They feature in our stories; where they come across all sorts of problems.  
Can you help them?

What can be done?  
Creativity and fun!  
With nature-loving **Esther**.

In the sun, snowstorms or rain,  
solving problems is never a pain  
...for **Kelvin!**

Come and be critical,  
feel analytical, or count  
the amounts, with **Pi!**

**Mrs Noblegas** follows the rules,  
she throws the best parties;  
she's so cool.

Here is **Hoseli**  
always in trouble,  
Can you help him out  
of another muddle?
