

Strengthening Early Learning Standards in Maine

Kide™ empowers educators with innovative lessons that blend storytelling, imaginative play, and hands-on activities. Extremely engaging and fun, Kide sparks curiosity, fostering a lifelong passion for learning while seamlessly supporting all domains in your state standards.

ENHANCE YOUR CURRICULUM, WITH PLAY

Science and Math

Our program supports the Pre-School Maine Early Learning Development Standards:

- 100% of the Science Goals
- 100% of the Math Goals

Language and Literacy

Our engaging stories are designed to strengthen students' language and literacy skills, including:

- Speaking and Listening
- Vocabulary Acquisition
- Comprehension
- Print Concepts
- Foundations of Early Literacy

Holistic Approach

Kide supports the holistic growth of each student by integrating:

- 100% of the Social and Emotional Development Goals
- 100% of the Physical Development and Health Goals
- 100% of the Learning Through Play Goals

WHY KIDE?

Our screen-free, hands-on lessons focus on building science processing skills, instead of memorization. Our play-based approach makes learning interactive and engaging, with captivating stories and problem-solving challenges.

- Available in English and Spanish
- No kits required
- Professional Development included
- Grounded in extensive research from the University of Helsinki, Finland
- Developmentally appropriate for early childhood ages

95%
of teachers agree that

KIDE LESSONS BENEFIT ALL CHILDREN REGARDLESS OF THEIR SKILLS AND ABILITIES.
