

# Strengthening Early Learning Standards in Texas

Kide™ empowers educators with innovative lessons that blend storytelling, imaginative play, and hands-on activities. Extremely engaging and fun, Kide sparks curiosity, fostering a lifelong passion for learning while seamlessly supporting all domains in your state standards.

## ENHANCE YOUR CURRICULUM, WITH PLAY

### Science

Our program enhances scientific reasoning skills and supports:

- 100% of the science domains in the Texas Pre-Kindergarten Guidelines
- 92% of the Kindergarten TEKS for Science

### Math

Our lessons help students build a strong math foundation with:

- Problem-solving
- Counting
- Geometry
- Measurement
- Sorting
- Patterns

### English Language Arts

Our engaging stories are designed to strengthen students' language and literacy skills, including:

- Speaking and Listening
- Vocabulary Acquisition
- Comprehension
- Analyzing Text
- Conducting Research

### Holistic Approach

Kide supports the holistic growth of each student by integrating Texas Prekindergarten Guidelines:

- 100% of the Social and Emotional Development Goals
- 100% of the Physical Development Goals

## WHY KIDE?

Our screen-free, hands-on lessons focus on building science processing skills, instead of memorization. Our play-based approach makes learning interactive and engaging, with captivating stories and problem-solving challenges.

- Available in English and Spanish
- No kits required
- Professional Development included
- Grounded in extensive research from the University of Helsinki, Finland
- Developmentally appropriate for early childhood ages

**95%**  
of teachers agree that

**KIDE LESSONS BENEFIT ALL CHILDREN REGARDLESS OF THEIR SKILLS AND ABILITIES.**
